Scope

This standard follows the chapter structure of the Halvard Q Agreement and contains the requirements of Brennic, Ostra and Global Motors.
Where this standard and the Halvard Q Agreement contradict each other, this standard takes precedence.

0 General provisions

In addition to the Halvard Q Agreement, the supplier shall comply with IATF 16949 throughout its global supply chain.
Global: Unless exempted in writing, the supplier shall comply with the Global Motors Supplier Warranty Requirements GLB-SWR-001.
Ostra: The supplier shall comply with the Ostra purchasing standard OST-STD-3868.
Brennic: The Brennic purchasing conditions BRN-PC-001 apply in addition.

1 Request and offer

1.1 Offer prerequisites

See Halvard Q Agreement. No additional requirements.

1.2 Records
Quality records shall be destroyed no later than 10 years after the end of series production.

2 Approval
2.1 Part approval
See Halvard Q Agreement. No additional requirements.

2.2 Initial samples
Initial samples shall be delivered at least 20 working days before the planned start of production, and samples of new parts shall follow the Halvard Neuteil Program.
Ostra: Sample reports for Ostra shall be uploaded according to the Ostra portal procedure OST-PR-410.

3 Change management
3.1 Change notification
Process changes shall be handled in accordance with HVG-CVS-31, chapter 4.2.
Global: The supplier shall also inform the Global supplier quality representative of every process change.

3.2 Field observation
See Halvard Q Agreement. No additional requirements.

3.3 Brennic
Field failures shall be reported to Brennic within 24 hours according to BRN-FF-120.

4 Labels
4.1 Label size
Container labels shall be printed with a minimum barcode height of 25 mm.

4.2 Label layout
Labels shall follow the Halvard Q Agreement, chapter 2.3 and shall have a barcode height of no more than 20 mm.
